Jl Lawanggintung, Asrama pusdikzi blok 4 RT 04/RW 02 No.52 Bogor Selatan

I am a fairly experienced programmer specializing in web and mobile development. With expertise in programming such as Laravel, GIT, MYSQL, CodeIgniter (CI), Bootstrap, jQuery, React Native, and Flutter, I create various applications and features to meet various needs. My passion for building efficient and easy-to-use systems drives me to continue learning and improving my skills.

EDUCATION

SMKN 4 BOGOR CITY

Vocational School in Software Engineering

Bogor, Indonesia

2016 - 2019

I learned about programming languages such as Java, PHP, SQL and JavaScript, then learned to create websites both frontend and backend, which website uses MYSQL database and saves it in GIT then makes it interactive and can be used by users.

UNIVERSITY OF BINANIAGA INDONESIA

Bachelor in Information Systems

Bogor, Indonesia

2019 - 2025

I learned a lot about programming, both in planning such as algorithms and mockups of applications to be created, then creating web and mobile-based applications, then how to do business with an information system.
