Lawanggintung Street, Pusdikzi dormitory block 4 RT 04/RW 02 No.52 South Bogor

I am a fairly experienced programmer specializing in web and mobile development. With expertise in programming such as Laravel, GIT, MYSQL, CodeIgniter (CI), Bootstrap, jQuery, React Native, and Flutter, I create various applications and features to meet various needs. My passion for building efficient and easy-to-use systems drives me to continue learning and improving my skills.

EDUCATION

SMKN 4 BOGOR CITY **Bogor, Indonesia**
Vocational School in Software Engineering 2016 - 2019

I learned about programming languages such as Java, PHP, SQL and JavaScript, then learned to create websites both frontend and backend, which website uses MYSQL database and saves it in GIT then makes it interactive and can be used by users.

UNIVERSITY OF BINANIAGA INDONESIA **Bogor, Indonesia**
Bachelor in Information Systems 2019 - 2025

I learned a lot about programming, both in planning such as algorithms and mockups of applications to be created, then creating web and mobile-based applications, then how to do business with an information system.

WORK EXPERIENCE

PT BONET UTAMA **Bogor, Indonesia**
Web Developer, Intern September 2017 - December 2017

- Developing web applications with CodeIgniter.
